Subject: RE: ROD verbiage and next steps

See **Section 9.3.1** below: Sentence 2 implies USFS can issue MPO if AZ does 401 cert (which they already did). But does last sentence qualify that by saying the cert is valid – for purposes of signing an MPO – only after a 404 permit is issued? Not clear if FS could sign the MPO now because there's a cert or would have to wait until after the 404 permit makes the cert valid. Wording in the ROD could be less arcane.
